

*This London humanitarian concert goal is to make this the first in a series of charity concerts for homeless children of Dubrovnik- Croatia and also for homeless children of Belgrade- Serbia, for children without parents. Each donation to one of the two accounts, or both, will be more than welcome to these institutions, for which there are not and must not be neither political nor economic obstacles. We thank every donor, and we hope that all of you good people will have willingness and desire to contribute to this commendable project, and we also appeal to friends of yours, to support this humanitarian action, and hope that you will, using your contacts, encourage your partners to do the same too.*

FRANO LASIC FEAT. KLAPA\* SMRIKA.

\*group of male singers who sing with different voices such as: bass, baritone, tenor I, tenor II; traditional dalmatian romantique ensemble with instruments.

You will have a rare opportunity to enjoy a special concert

Frano Lasic feat. klapa\* Smrika.

Frano Lasic is famous actor and singer from Croatia.

Frano was born in 1954 and he is starting the concert with hits from that decade, continuing with hits from each following decade up to present time. It will be a true musical journey through time. Through music, you will travel back to some better, more carefree days.

You will hear some foreign, well known hits that were played on Radio Luxemburg; some local ones, also well known, ones that we listen to on single track records and LPs; and some popular Dalmatian songs. You'll be able to enjoy some of Frano's evergreen hits such as "Zagrtjeni" and "Volim te budalo mala", for which he was rewarded with silver, gold and platinum record; but this time he'll perform in a special Klapa arrangement. Frano and the "klapa" will take you on a journey back to romantic seaside strolls where you'll get to smell that intoxicating smell of the sea again, watch the sun set over those Dalmatian waves ... So let's sing together all those songs we know so well, yet hear so rarely.

Welcome!

\*group of male singers who sing with different voices such as: bass, baritone, tenor I, tenor II; traditional dalmatian romantique ensemble with instruments.
